

## JOBLOGIC

NEC have recently moved across to **JOBLOGIC**, the number 1 product in Field Management Software. JobLogic provides a real-time interface between the office and the engineers, this makes it easy for us to streamline our day to day tasks to our Engineers and links effectively to all of our clients.

## COMPANY OVERVIEW

NEC Services Ltd are an Electrical and Mechanical company and have been based in Hull for over ten years. We provide a Nationwide service specialising in the Commercial, Industrial, Residential homes, Catering and Retail industries. We provide customers with a comprehensive service that is backed by certification, quality, reliability and experience, along with work that is carried out in a manner that meets high and professional standard.

We pride ourselves on the strong capabilities of our team and delivering an exceptional service is paramount to us. NEC commit to providing all of our customers with a 24 hour call out service, 365 days a year. We offer a wide range of electrical & mechanical disciplines from design & installation, to general maintenance & testing. Whatever your requirements NEC Services has the experience to deliver.

## MAINTENANCE PACKAGES

Prices will be tailored to your specific business needs and can include electrical works in line with the latest BS 7671 Electrical Regulations; mechanical works in line with Gas Safety Regulations 1998 plus other more specific items to ensure your compliance with items such as BS 62305 for lightning inspection systems and BS 8300 for the design of buildings and their suitability to meet the requirements of disabled people.

## PORTABLE APPLIANCE TESTING

Testing of portable equipment as per the IEE Code of Practice for the In-service Inspection and Testing of Electrical Equipment.

## FIRE ALARMS

Registered Member

Full design, installation and service of fire alarm systems as per the latest requirement of BS 5839-1 to ensure specific compliance plus any additional requirements highlighted in your fire risk assessment.

## EMERGENCY LIGHTING

Full design, installation and service of emergency lighting systems as per the latest requirement of BS 5266-1 to ensure compliance plus any additional requirements highlighted in your specific risk assessments.
